

Allocation of Seats in Engineering Branches

A branch of engineering will be allocated for only those who pass in the first two semesters of I year engineering (after taking the remedial examination after 2nd Semester/term of year of Engg into consideration) and satisfy the requirements. The allocation of Engg branch shall be made based on the choice of the students within each campus (treating each campus separately) and by resolving based on their performance in the first two Semester/term of I yr of Engg (not considering PUC) as per the following procedure:

1. Each center will be considered as autonomous and the assignment will be made
2. Choice of the students in order of preference going upto all 6 choices will be collected on-line centrally, with a printout sent with signatures through directors
3. RGUKT will take the overall CGPA of the students of a campus passing in the first two Semesters/terms of the BTech part, put the students in order in each of the reserved categories and allocate the seats as per the rank order considering the no of seats available in each of the branches for each of the categories of reservation
In case of tie due to same marks, the tie will be resolved based on the CGPA in the PUC programme (including all 5 Semesters)
4. The no of seats available will be decided considering the total no of students passing the first two Semesters/terms of I year Engg (after taking the remedial examination after 2nd Semester/term of year of Engg into consideration) and going by the following ratio (for a total of 1000 seats):

Chemical Engineering : 75/1000

Civil Engineering : 200/1000

Computer Science and Engineering : 200/1000

Electronics and Communication Engineering : 200/1000

Material Science and Metallurgical Engineering : 125/1000

Mechanical Engineering : 200/1000

That is, the number of seats in each branch may vary from campus to campus depending on the number of students passing in that year at each campus.
